## **Planner's Comments**

Thank you all for coming, this was a good turnout for an event so far West, with lots of other clubs represented. I hope you all managed to get to run the course you wanted as it's hard to estimate just how many maps will be needed.

Well done to those who bravely tackled the course with no paths! In Norfolk it is easy to rely on the many paths, in other regions you need to be able to read contours and follow other line features (including running on a contour, ie staying on the same level).

Thanks to my partner in crime Leanne Bailey for sterling work, having thought through all eventualities for this unusual format of event. Thanks too to the control collectors – although I'd brought a chair, I don't think I sat down for more than 10 minutes and I was pleased I didn't have to go out again.

I hope you all enjoyed this lovely little area.
